

How to use codingbat.com

Go to www.codingbat.com. Make an account as you will want to save your work and so that I can follow your progress. Once you create an account sign on. On the top right hit prefs. Then at the bottom of the prefs page add my email jgoode@sas.edu.sg and hit share.

Please note that you will want to select WarmUp as a starting point. We will try to work on the following - sumDouble, nearHundred, diff21, in1020, or35

To help you learn some of the things we don't yet know select the [Java If and Boolean Logic](#) section below. There is some teaching to help you work ahead if you'd like.

PracticeIt site:

<http://practiceit.cs.washington.edu/practiceit/>

Practice-It BJP3 Problems: Self-Check 2.1, 2.2, 2.3, 2.5, 2.8, 2.9, 2.10, 2.11, 2.12, 2.13, 2.14, 2.15 Exercise 2.1

To prepare for quiz which is next class – review your exercises, your notes, your programs.
